## Celebrating 25 Years in the Kimberley

With her classic steel hull, handcrafted timber interiors, and soul full of stories, she has become a part of the Kimberley landscape. Over the past 25 years, Discovery One has carried more than 11,000 guests across nearly 400 expedition cruises, offering intimate, unforgettable journeys through one of Australia's most breathtaking regions. She's not just a boat — she's part of Kimberley cruising history.

## Honouring Country and Culture Walking Together in Respect

As we cruise the Kimberley coast, we travel through the homelands of the Wunambal Gaambara, Dambimangari, and Balangarra peoples. We thank them for welcoming us to these ancient lands and pay our respects to Elders past, present, and emerging.

These lands have been cared for by Traditional Custodians for tens of thousands of years, rich with sacred sites, stories, and cultural law.

## Our Pledge – People, Planet & Purpose

At Discovery One, sustainability isn't a trend — it's our foundation. For over 25 years, we've taken a low-impact approach to exploring the Kimberley. We proudly source fresh local produce, partner with regional suppliers, and support Traditional Owner visitor programs to ensure tourism gives back.

We avoid single-use plastics, use eco-friendly products, and recycle wherever possible. And our biggest asset is our crew—passionate people who lead with care, knowledge, and purpose. This is cruising with intention: light footprints, lasting memories, and a commitment to people, planet, and place.
