DISCOVERY ONE KIMBERLEY CRUISES
2023 SEASON

DISCOVERYONE.COM.AU

"We often get asked what is the best time of year to visit the Kimberley and the answer depends on what you are interested in experiencing. If you are keen to see, feel and hear the thundering waterfalls then you need to visit the Kimberley straight after the wet season. Our Waterfall packages are offered from March through to early May and you'll visit many waterfalls including Berkeley Falls and the spectacular twin falls of King George.

If you are seeking a little more adventure - travelling less distance but spending more time exploring the coastline the Explore the Kimberley package from June through to August might be for you. Each day we venture out two to three times in the small boats - taking a refreshing dip in rock pools, taking short walks through to view cave art, landing on and exploring beaches and islands and taking in geological wonders and historical sites. After cruising up the coast you'll enjoy a helicopter flight over Mitchell Falls and then you'll return to Broome via a scenic flight along the coast in a fixed wing plane.

Some people have time restraints or believe nine days onboard a small boat is long enough. For you we have the Hunter River Adventure - a shortened cruise packed with activity. You arrive straight into the heart of the Kimberley via a seaplane. After a scenic fly-over Mitchell Falls, you'll land in the Hunter River where the nine night cruise begins. There will be lots of exploring in the tenders, short walks and excursions. This package is offered during May, August and September.

If you don't like small planes or helicopters, but love being on the water cruising than the Great Rivers package is for you. We cruise from Derby right through to Wyndham, exploring in the small boats as we go and marvelling at the wildlife and changing scenery of this beautiful ancient land.

We have been running tours in the Kimberley for 21 years and have tailored our packages to ensure you experience all the best bits."

"We saw places and scenery which aren't featured in any brochures but should be. We saw parts of the Kimberley which only an experienced crew, in a shallow draft vessel, with fit-for-purpose tenders, can get passengers in to see. Totally loved every minute and the crew were fabulous."
